GSM DEVICES

G-ULTRA
QUICK GUIDE

FIGURE 1

---

1. Important Safety Instructions ⚠

1. Do not install this product near the DOSS sensor inside the gate motor housing or near the remote receiver.
2. Do not install this product near any sensitive electrical components.
3. All installation, repair, and service work to this product must be done by a suitably qualified person.
4. Do not in any way modify the components of the system.
5. Do not install the equipment in an explosive atmosphere: the presence of flammable gas or fumes is a serious danger to safety.
6. Do not leave packing materials (plastic, polystyrene, etc.) within reach of children as such materials are potential sources of danger.
7. Dispose of all waste products like packing materials, according to local regulations.
8. Centurion Systems (Pty) Ltd does not accept any liability caused by improper use of the product, or for use other than that for which the GSM system was intended.
9. This product was designed and built strictly for the use indicated in this documentation. Any other use, not expressly indicated here, could compromise the service life/operation of the product and/or be a source of danger.
10. Anything not expressly specified in these instructions is not permitted.

📋 This icon indicates tips and other information that could be useful during the installation.

📢 This icon denotes variations and other aspects that should be considered during installation.

2. Technical Specifications

Supply Voltage Range	11-24V DC
Maximum Current Draw	300mA @ 12V DC
Input/output Current Rating	50mA (Open Collector)
Relay Contact Current Rating	1A, 30V AC/DC (Resistive)
Input Sense Voltage Range	0-24V DC (0-1.6V Low-input State, 5V-24V High-input State)
Network Provider	MTN (South Africa only)
Number of Configurable Input/output Channels	4
Number of Relays	2
Model Options	GSM 2G: 850/900/1800/1900MHz (EDGE) GSM 3G: 900/2100MHz (EDGE) 900/2100MHz (UMTS) GSM 3G PENTA: 800/850/900/1900/2100MHz (UMTS) GSM 4G/LTE-CAT1: 900/2100MHz
Degree of protection	IP40

Displays the device's IMEI number

Device Reset
⚙ Device Reset
Refresh the connection to G-WEB or restore the device to default factory settings (See Section 5).

TABLE 2

5. Syncing and Factory Reset

⚙ Device Reset	From the main menu, scroll left using the direction buttons until "**Device Reset**" shows on the screen. Press the enter/home button to enter the sub-menus.
⟲ Re-sync	**Re-sync** (sub-menu) Re-sync will refresh the connection of the device to G-WEB, and will not erase any settings. Push the enter/home button to confirm a re-sync, if the current settings are still desired.
🔄 Factory Reset	**Factory Reset** (sub-menu) Factory reset will restore the device to factory settings. Press the enter/home button to confirm a factory reset. ⚠ **WARNING! This will erase all settings, and restore the device to its original factory state!**
← Back	**Back** (sub-menu) Press enter/home button to return to main menu.
Settings will be lost PROCEED? X ☑	**Confirmation screen** Confirm or decline proceeding with factory defaulting.

TABLE 3

6. Configurations

6.1. Removing the Mounting Plate and Fascia

To access the terminal blocks of the **G-ULTRA**, the back plate and fascia need to be removed. Follow the instructions below to do this.

6.1.1. Removing the Mounting Plate

Gently pull the two clips at the back, backward to release the main G-ULTRA unit, and lift the unit out of the mounting plate.

Main G-ULTRA Unit

Mounting Plate — Clips

FIGURE 2

6.1.2. Removing the Fascia

The fascia can be removed by inserting the tips of one's fingers into the slots (as shown in Figures 3 and 4), and pulling outward and upward. The fascia should pop off without effort.

G-ULTRA Fascia — Slots

FIGURE 3

G-ULTRA Fascia — Main G-ULTRA Unit

FIGURE 4

📋 Reverse the procedure under Section 6.1 to re-assemble the G-ULTRA.

6.2. Installation
6.2.1. Wall-mounting

The Mounting Plate is used to mount the G-ULTRA device to a wall. Use four screws with wall anchors (not supplied) to secure Mounting Plate.

Mounting screws (Not Supplied)

6.5. Configuration of features

All features – both basic and advanced – can be easily, and remotely, configured via our G-WEB Mobile Phone App or our G-WEB Online Interface (http://www.gweb.co.za).

By simply logging on to the G-WEB App or G-WEB, you can add and delete users, specify text for input notifications and activations, modify device characteristics and many other features.

Download the G-WEB mobile App from your Smart Phone by navigating to the App store.

It would be necessary to register if you have not previously done so.

6.5.1. G-WEB Mobile App (Installers)

To download the G-WEB Mobile installer app, simply scan the QR code on your mobile device to be taken to the app in the applicable app store for your operating system. The G-WEB app gives you on-the-go access to a multitude of configuration and admin settings.

Get it on Google play

Download on the App Store

There is no need to download a third party QR Scanner, as there is a QR Scanner that is built into the G-WEB ULTRA Mobile App.

6.5.2. G-WEB Online

Your CENTURION GSM devices can be remotely managed and configured using the G-WEB online interface. Scan the QR code to be taken to G-WEB online.

6.5.3. MyCentsys Remote Mobile App (Users)

Download the MyCentsys Remote mobile app now for free by scanning the QR code on your mobile device. MyCentsys Remote lets you remotely control your GSM devices from your phone and receive push notifications for systems that are being monitored.
